

Covermade's "Cover Our Kids"™ Program

Covermade is proud to partner with **COVENANT HOUSE** to assist homeless youth in need.

Covermade's Commitment:

Covermade's program donates **5% of all revenue** and purchases to **Covenant House**. Together, we can work toward **ending** the cycle of youth **homelessness!**

It is hard to imagine a child sleeping on the streets, without a bed, without a blanket, without the safety of the place called "home". For most of us, homelessness will never be a problem we will face. Yet, we must not forget that there are thousands of homeless children in situations of abuse, neglect and abandonment that desperately need the help of those more fortunate.

ABOUT COVENANT HOUSE:

Covenant House is the largest privately funded agency in the Americas that provides food, shelter, support, immediate crisis care and long-term guidance to homeless, troubled youth. In the past forty-plus years, Covenant House has served a total of 1.2 million homeless children. Approximately 56,000 receive assistance annually in 27 cities across the U.S., Canada, and Central America.

"We want to give back to benefit those in need. It seems like a natural fit for a bedding company to be working with an organization that helps kids without a place to sleep find one! We are very excited to partner with Covenant House and help end the cycle of youth homelessness."
